

Customer Satisfaction Tracking

Wave 3 - November 2023

MALATEST

BC Ferries

This report was prepared by R.A. Malatest & Associates Ltd. for
BC Ferries' *Customer Satisfaction Tracking Research*.

BACKGROUND AND INTRODUCTION

Since 2003, BC Ferries has been conducting Customer Satisfaction Tracking (CST) research on select routes, in accordance with the Coastal Ferry Services Contract between BC Ferries and the Province of British Columbia. In 2019, BC Ferries in conjunction with R.A. Malatest & Associates Ltd. (Malatest), an independent research firm, developed and implemented a new, more comprehensive CST data collection methodology.

As a core data gathering strategy, Malatest conducts intercept surveys on BC Ferries vessels in June, August, and November each year. This report presents findings from November 2023.

Passengers who were surveyed in November 2023 reported an overall satisfaction score of 3.99 out of a possible 5 (-0.04 change since 2022), and 81% of passengers surveyed reported that they were satisfied with their overall experience (-1% change since 2022).

Customer Satisfaction Survey Highlights

Overall Satisfaction

Overall satisfaction scores saw a decrease this year compared to November 2022.

Terminal Satisfaction

Terminal satisfaction scores saw a slight decrease this year compared to November 2022.

Onboard Satisfaction

Onboard satisfaction scores decreased this year compared to November 2022.

Ferry Running On Time

Passenger assessments of whether the ferry was running on time are lower this year compared to last.

Value for Money of Fares

Value for Money of Fares scores saw a sizable decrease this year compared to November 2022.

2023 CST Research Program Updates

As of June 2023, the following updates have been made to the BC Ferries' CST Research Program's survey instrument and intercept survey methodology:

SURVEY INSTRUMENT CHANGES

The CST survey instrument underwent review and new questions were added to reflect recent service areas of interest:

- **BC Ferries Digital Products**

Survey questions were added to help determine passenger satisfaction with a series of BC Ferries Digital Products (BC Ferries mobile app, electronic boarding pass, self-serve kiosk, digital information screens onboard). A question was also added to gauge whether customers feel supported by BC Ferries' suite of digital products overall:

Thinking about your entire journey, do you feel you were well-supported by BC Ferries digital products (e.g., website, mobile app, service updates, ticketing, digital screens)?

- **Reservations**

A new question asks passengers how they made their reservation.

- **Fare Type**

A new question asks passengers to indicate what type of fare they purchased for their current sailing.

The results for these new questions have been summarized and are included in the following report.

RECRUITMENT METHOD CHANGES

- **Use of Postcards**

Postcards were adopted as a method of recruitment during the COVID-19 pandemic. Survey staff continue to use postcards as a method of engagement with passengers where appropriate (e.g., to quickly communicate the details of the survey or when passengers want to do the survey online but are not comfortable providing an email address). The postcard (Appendix E) provides passengers with information on how to complete the CST Survey online via the *ferryfeedback.ca* portal.

CST Survey Method

Passengers travelling on select BC Ferries routes during the month of November 2023 were eligible to participate in the 2023 Wave 3 CST Survey. Intercept surveys were conducted with passengers onboard key intercept routes from November 3rd to 27th, 2023. Passengers who agreed to participate were able to rate their satisfaction with various aspects of their sailing experience, provide feedback on their perception of BC Ferries as a company, as well as make suggestions for possible improvements. To ensure that the research was as representative of passengers as possible, three surveying modes were used.

INTERCEPT SURVEYS Surveyors moved throughout the vessel and engaged passengers in various areas (e.g., upper vehicle decks, lounge areas, outer decks). Surveyors administered a demographic screener survey and then offered passengers the option of completing the remainder of the survey online (via a secure email link) or on paper, which was provided along with a postage-paid return envelope.

POSTCARDS Surveyors provided postcards to passengers who did not wish to engage long enough to complete the demographic screener.

RECRUITMENT OF RESERVATION HOLDERS A survey invitation was emailed to a random selection of passengers who fulfilled a reservation on one of the intercept routes during November 2023. Selection of these passengers was carried out once the sailings already covered by the intercept schedule were removed.

As shown in the table below, 76% more surveys were completed this year than in November 2022.

To correct for any imbalances in the data collection process, the results in this report have been weighted according to:

- Route,
- Day type (weekend vs. weekday),
- Day part (morning, afternoon, and evening),
- Passenger type (walk-on vs. vehicle), and
- Reservation status (reserved vs. non-reserved).

Overall Customer Satisfaction

Customers were asked to rate their overall satisfaction with their recent experience travelling with BC Ferries.

QUESTION: How satisfied or dissatisfied were you, overall, with your recent experience travelling with BC Ferries?
(1 = very dissatisfied; 5 = very satisfied). Satisfied passengers are those who reported a 4 or 5 on the question.

Note: Arrows indicate the largest positive and negative changes in satisfaction scores since 2022.

Note: Weighted averages reported.

Overall customer satisfaction experienced a decrease compared to last year's score (a change of -0.04 points). Analysis by route shows that passengers on Route 19 are the most satisfied with their overall experience (4.19) while passengers travelling on Route 3 are the least satisfied (3.74). Route 1 showed the most marked reduction in overall customer satisfaction score since last year (-0.18), while Route 2 showed the largest increase over the same period (+0.18).

81% of passengers stated that they were satisfied with their overall experience.

Terminal Services Customer Satisfaction

The customer satisfaction score for overall experience at the terminal before boarding decreased over the previous year's score (-0.03).

QUESTION: How satisfied or dissatisfied were you with your overall experience at the terminal before boarding?
(1 = very dissatisfied; 5 = very satisfied). Satisfied passengers are those who reported a 4 or 5 on the question.

Note: Arrows indicate the largest positive and negative changes in satisfaction scores since 2022.

Note: Weighted averages reported.

Analysis by individual terminal shows that passengers sailing from either Duke Point or Nanaimo Harbour (4.07) were the most satisfied with their terminal experience while those departing from Langdale were the least satisfied (3.64). Horseshoe Bay terminal passengers showed the greatest increase in terminal satisfaction scores compared to last year (+0.10) while Gabriola showed the largest decrease in average score since last year (-0.13).

Overall, 80% of passengers stated that they were satisfied with their terminal experience.

Compared to November 2022 levels, all but one terminal service experienced a decrease in passenger satisfaction. “Usefulness of digital information screens at the terminal” showed the only increase in score (+0.02) while “parking options at the terminal” showed the largest decrease compared to November 2022 (-0.27). Satisfaction scores for each terminal are presented in Appendix B.
